CWSP Needs Your Support To Keep Our Students At Nonprofits

The Corporate Work Study Program (CWSP) works hard to place every single student in a meaningful, well-matched work placement each year. Nonprofits continue to leverage our students in innovative ways to continue to serve the greater San Diego community. Most nonprofit partners are unable to pay the full program fee associated with hosting CWSP student workers. We are asking for your help to fill this financial gap and ensure we can continue to place students with dedicated nonprofit partners.

The Ask: An annual tax-deductible donation of \$9,150 covers one student's CWSP placement at a nonprofit Partner for one academic year. You'll receive quarterly updates on students working in nonprofits, invitations to special CRSD events, and the knowledge you're not only providing a student with a path-changing experience but also advancing the mission of a worthwhile community-based organization!

THE BENEFITS OF PLACING STUDENTS AT NONPROFITS

Nonprofit Benefits:

- Gaining reliable, successful workers (often Bilingual) working full days, and are ready to help often understaffed teams
- Creating a 21st-century pipeline of skilled workers by intentionally investing in the development of a diverse and inclusive workforce talent pool
- Hiring a student invested in giving back to the community where they live
- Freeing up experienced staff members to concentrate on higher-priority projects
- Allowing employees to develop their leadership skills through mentoring students and creating opportunities for career growth that help support company goals of engagement and retention

Student Benefits:

- A work experience that is uniquely aligned with CRSD's values of social justice and community service
- Mentorship from positive, professional supervisors who are experienced in coaching entry-level staff and volunteers
- Exposure to high-interest career paths in education, youth development, social work, healthcare, and the arts
- Students gain valuable social and technical skills, along with self-confidence, and professional aspirations
- 90% of Cristo Rey students enroll in college. Corporate Partners continue to hire Student Associates during and after college
